

# ZOYA KHAN

## SUMMARY

I am an IT professional with expertise in web technologies, dedicated to developing robust web applications. With a strong enthusiasm for continuous learning, I thrive in dynamic environments that foster growth and innovation. My intrapersonal skills in decision-making and learning enable me to adapt quickly and contribute effectively to any team.

## EXPERIENCE

**Web Developer Intern**, 01/2024 - Current  
**AarkSoft WebTech** - Vadodara

- Developed user-friendly web forms with validation and error handling.
- Developed web applications using HTML, CSS, Tailwind, JavaScript, Next.js, MySQL, prisma

**Internship Student**, 06/2023 - 07/2023  
**InfoMover Technologies**

- Made a project using Web Technologies.

**Internship Student, Educator**, 12/2023 - 01/2023  
**DayalBagh Educational Institute**

- I taught students Science and Maths and indulged myself in social work like distributing food, clothes, books etc to needy ones.

## PROJECTS

### Hospital Management System

Developed a comprehensive system using Next.js, Typescript, MySQL and prisma for managing hospital operations. Integrated linked modal for dynamic data passing.

### Recruiting Management System

Built a system using Next.js, Typescript, MySQL, prisma, Tailwind with robust CRUD operations for managing recruiting process and dynamic data handling through linked modals

### Plant Care Assistant (E-commerce Website)

Created an E-commerce platform using web technologies like HTML, CSS, Bootstrap, PHP, MySQL which allows user to register, login and add plants to cart and make purchases with plant care tips for each plant according to the location and also allows user to customise their garden.
